

## **Edmonton Section of the Alpine Club of Canada – Annual Photo Contest**

### **FTP Photo Submission Details for 2011**

**Host:** ftp.alpineclub-edm.org

**Username:** photocontest@alpineclub-edm.org

**Password:** ph0t0c0nt3st

Once you have accessed the FTP site, you will see a folder for each category of the contest. Upload your photo to the appropriate folder. Ensure that the photo is named with the letter for the category it is entered, then a space, then the name of the category, then a space and then your first and last name.

Example: A RockClimingandMountaineering JohnDoe

Please note that photos submitted to this site are “write” only. This means that once you have uploaded the photo to the necessary folder it **will not** be visible. You will need to confirm the photo was successfully uploaded using your FTP program. This is to protect your photos from being downloaded by others.

If you do not have a FTP program, we would suggest downloading FileZilla @ <http://filezilla-project.org>. It is free and very easy to use.

If you have any questions, please forward them to [webmaster@alpineclub-edm.org](mailto:webmaster@alpineclub-edm.org).
